

## KROHNE Announces New Sales Channel Partnership with Nuclear Logistics Inc.

### Logos NLI and KROHNE

KROHNE announces its exclusive partnership with Nuclear Logistics Inc. (NLI), a full-service company that offers safety-related equipment, maintenance and complete engineered solutions to the nuclear industry. Under this exclusive sales channel partnership; NLI of Fort Worth, Texas will supply KROHNE's flow and level instrumentation and measurement products to nuclear power facilities in North America.

With KROHNE's accurate and reliable measurement instrumentation, NLI is able to provide state-of-the-art flowmeters directly to nuclear facilities, dedicating and qualifying all flow and level meters for Class 1E applications, and as well as providing ASME III N-Stamp certification as required. Committed to keeping customer plants operating efficiently, both companies look forward to providing these innovative products to the nuclear industry through this agreement.

### About Nuclear Logistics Inc.

NLI is the world leader of third party safety-related equipment supply and a top provider of safety-related equipment maintenance, able to offer turn-key solutions for any challenge involved in nuclear power plant operations. With a staff of over 70 professionals working in a state-of-the-art engineering, fabrication and testing facility, NLI can supply the nuclear industry with an extensive line of products and comprehensive services.

### About KROHNE

KROHNE is a global leader in design, development and manufacturing of innovative and reliable process instrumentation; providing measurement solutions to all industries worldwide. Founded in 1921 in Duisburg, Germany, KROHNE now employs more than 2,000 people worldwide, generating total sales of almost € 230 million in 14 production facilities and 40 subsidiaries and joint ventures. KROHNE is an independent, family-owned company, striving to be a fair and trusted partner for customers, vendors and employees in times of rapidly changing markets.
